DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1 and 42 are rejected under 35 U.S.C. 102(b) as being anticipated by Zupancic et al. (US-981) or Bae et al. (US-902) for the reasons of record and further in view of the following remarks.

Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claims 2-41 and 43-52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zupancic et al. (US-981) or Bae et al. (US-902) for the reasons of record and further in view of the following remarks.

Application/Control Number: 09/942,887

Art Unit: 1713

Applicant's response filed in paper no. 5 on 11/18/2002 has been fully considered but are not found to be persuasive because applicant's remarks are not commensurate in scope with the instant claims. Applicant urges the criticality of "a quantity of water..selected to swell the polymer to a defined volume upon curing" which is not taught in prior art. The examiner disagrees because firstly, it is well known to one skilled in the polymer art that water will swell the acid monomers as claimed. The recited species are known in the hydrogel art. At follows that it would be inherent that a quantity of water will swell the resulting polymer to a defined volume upon curing. Secondly, applicants have not clearly demonstrated the criticality of "a quantity of water" with respect to the "defined volume" of the resulting polymer. Furthermore, such alleged defined values are not recited. In order to overcome the instant case of prima facie obviousness, applicants' claims must be commensurate in scope with any showing of unexpected results. Accordingly, the examiner's position is maintained.

5: THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Application/Control Number: 09/942,887

Art Unit: 1713

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Helen L. Pezzuto whose telephone number is (703) 308-2393. The examiner can normally be reached on 8 AM to 4 PM, Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (703) 308-2450. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9310 for regular communications and (703) 892-9311 for After Final communications.
